The screenshot displays the swisstopo map viewer interface. On the left, a sidebar contains navigation options: Share, Print, Draw & Measure on map, Advanced tools (highlighted with a green arrow), Import maps, Import file (highlighted with a green arrow), Compare, swisstopo, and Maps displayed. The main map area shows a topographic map of the Aigle region in Switzerland, with a yellow rectangular area of interest outlined. An 'Import file' dialog box is open in the center, featuring tabs for 'Online' and 'Local', and a text input field for 'GPX KML KMZ COG URL'. A green arrow points from the 'File URL' label to this input field. To the right, the 'Object information' panel is visible, showing details for the selected aerial image (19920805), including the picture number, flight date, film type, orthophoto filename, and coordinates. A green arrow points from the 'Drag&Drop' label to the 'Orthophoto' field. The bottom of the interface shows a scale bar (2 km), coordinate system (CH1903+ / LV95), and coordinates (2'570'980.72, 1'133'277.48).

Afficher les images directement dans le visualiseur de cartes

The screenshot shows the swisstopo map viewer interface. On the left, a sidebar contains navigation options: Share, Print, Draw & Measure on map, and Advanced tools. Under Advanced tools, 'Import maps' is selected, and 'Import file' is highlighted. A green arrow points from the 'Import file' button to the 'Import' button in the dialog box. The main map area displays a topographic map with a historical aerial photograph overlaid. The photograph shows a landscape with fields and buildings, with a red box indicating the area of interest. The dialog box 'Import file' is open, showing the 'Online' tab selected. The URL 'https://data.geo.admin.ch/ch.swisstopo.lubis-luftbilder_schwarzweiss/lubis-luftbilder_sch...' is entered in the text field, and a green checkmark indicates the file was successfully imported. The 'Import' button is highlighted with a green arrow. The map includes various labels for locations like Torgon, Revèrèulaz, Vio, La Forclaz VD, Le Chamossaire, Plambuit, 2113, 1805, Ensex, 1776, Col, la C, la Gryon, Les Chaux, Les Pars, Antagnes, Fenalet-s.-B., Gryon, Arveyes, Barboleuse, Huémoz, Villars-s.-O., and Les Chaux. The bottom of the screen shows the scale bar (2 km), the coordinate system (CH1903+ / LV95), and the coordinates (m) 2'558'804.08, 1'131'076.25. The bottom right corner contains the data source (Data: swisstopo, data.geo.admin.ch), version (v1.50.0), and links to Terms of Use and Legal Notice.
